Governor's Office of Emergency Services
Report Prepared by
California State Warning Center

SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES COASTAL REGION

Water Treatment Facility Failure, City of Benicia, Solano County (FINAL)

The California State Warning Center was notified from Solano County OES of a water treatment facility shutdown. The City of Benicia water treatment facility at 100 Water Way, Benicia, CA 94510 had a 24" supply line break causing an inability to provide drinking water to the city of Benicia. This morning at 0731 hours Solano County OES advised the California State Warning Center that the water treatment facility is now able to provide drinking water to the city. A temporary fix has been put in place to provide drinking water to the city until permanent repairs are complete. Solano County OES will continue to monitor the situation until permanent repairs are complete.

- A Nixel alert has been sent out to conserve water.
- An underground 24" supply line broke causing the issue and repairs are underway.
- The city is prepared to purchase and distribute bottled water and Solano County Emergency Management will preposition water tenders if necessary.
- Stakeholders will meet at 0900 hours to discuss a permanent fix.

Cal OES SOUTHERN REGION

- 2022 San Bernardino, Victorville Sewage Spill – On May 9th at 1622 hours, a leak was reported as a continuous flow of sewage in the Victorville River Wash area. It was tapered-off using two large pumps. The cause was found to be rubbish intentionally dumped into several manholes by homeless persons (i.e. – tires, large debris). Debris has been removed and manholes cleared utilizing specialized equipment and personnel. No estimate provided on the amount of waste dumped. Ample resources were on-site and there were no unmet needs.
- SDO and Territory rep continue to monitor the outcome of this incident.

COVID-19 SUMMARY

Coronavirus Disease 2019 (COVID-19)

On 03/02/20 at 0700 hours, the Cal OES State Operations Center (SOC) activated in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On 02/17/22, Governor Newsom unveiled the "[California SMARTER Plan: The Next Phase of California's COVID-19 Response](#)". The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

CDPH Statewide Travel Advisory

- For more information: [CDC Travel Guidelines](#)

Confirmed California COVID-19 Cases - Per California Department of Public Health Tracking COVID-19 as of 05/04/22 at 1630 hours:

- 8,631,663 total confirmed cases.
 - +43,871 Delta
- 89,694 total deaths.
 - +303 Delta
- Please see the most recent "Situation Report - COVID-19" attachment for additional details.

Weather Risk Outlook

Regional Operations Center

Western Region

Tuesday, May 10

	Tue, May 10	Wed, May 11	Thu, May 12	Fri, May 13	Sat, May 14	Sun, May 15	Mon, May 16
Fire Weather Low RH / Wind / Dry T-Storms	Southern	Southern					
Thunderstorms Wind / Hail / Tornadoes	Inland	Inland (Sierra)					
Heat				Inland/ Southern	All Regions	All Regions	All Regions
Cold	Inland/ Coastal						
River Flooding							
Wind	Southern	Southern					
Heavy Rain Flash Flooding / Debris Flow							
Snow	Inland (Sierra)						
Coastal Flooding							
Risk Levels	Little to None		Minor	Moderate	Major		Extreme

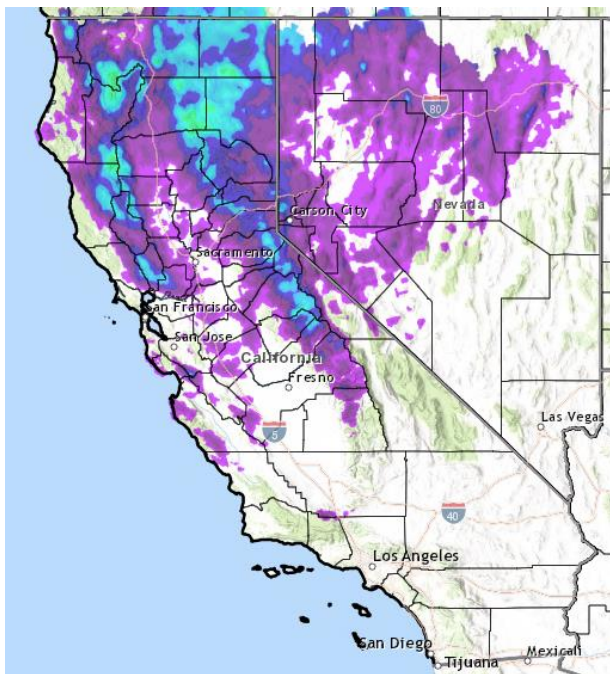

Weather Key Points

Regional Operations Center

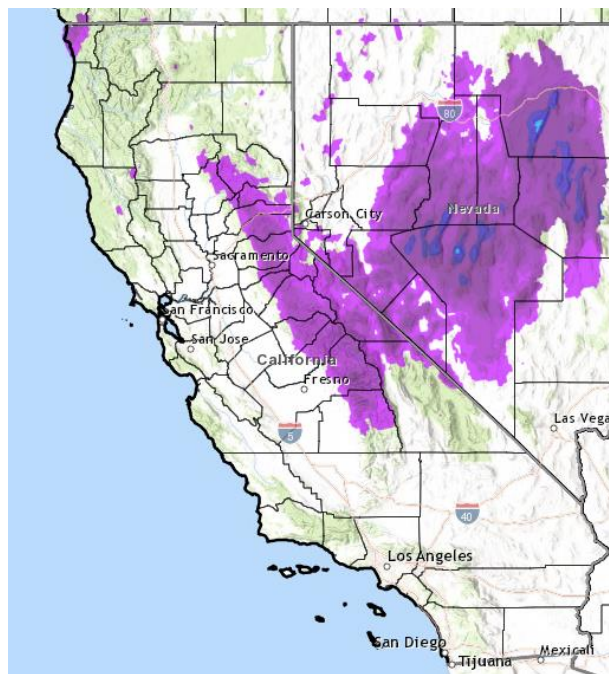

Western Region

Tuesday, May 10

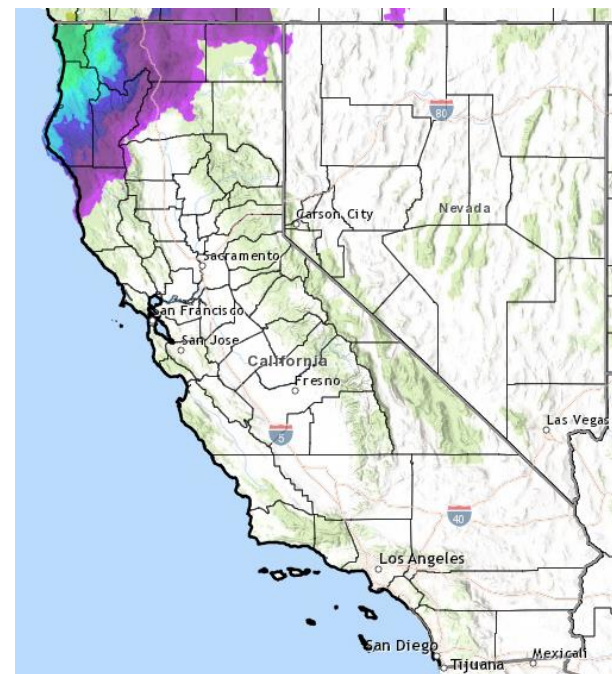

- Breezy conditions will persist over the southern California mountains, Mojave Desert, and areas near and east of the southern Sierra through Wednesday, bringing locally elevated fire weather conditions
 - Wind gusts of 35 to locally 50 mph are expected
 - Blowing dust could also occur at times through midweek over the deserts
- A few more rounds of mainly light rain and mountain snow will cross northern California through Wednesday, with some additional showers possible over far northwest California Thursday and Friday
 - Snow levels will remain fairly low through Tuesday night, holding around 3,000 to 3,500 feet before rising quickly through midweek
- A rapid and significant warming trend is on track to arrive starting Friday and continue through the weekend. Some desert locations may approach 110 degrees during this time, with widespread 90s over the Central Valley and other southern California locations.

Tuesday

Wednesday

Thursday

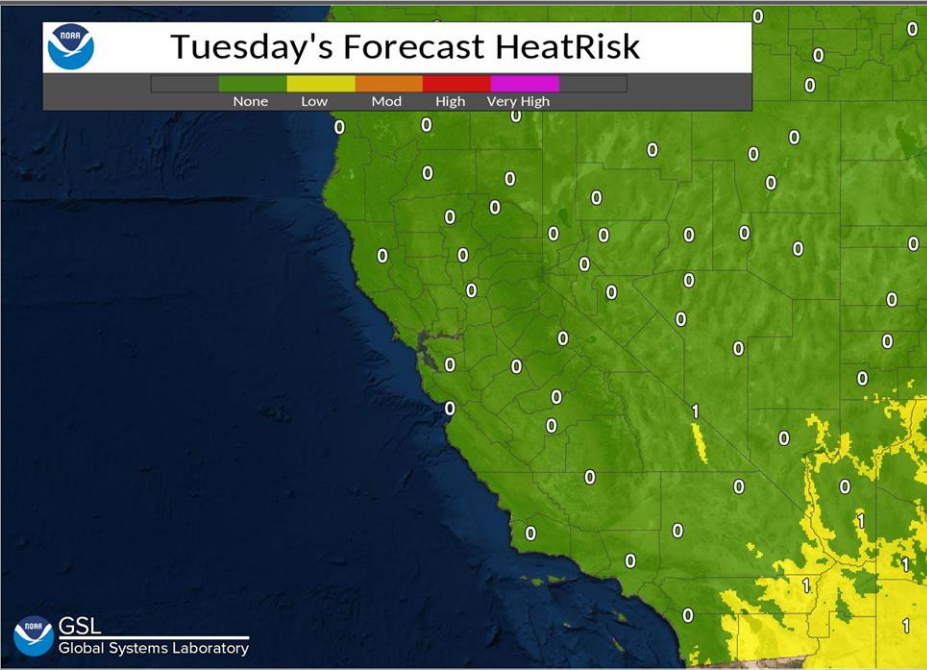

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

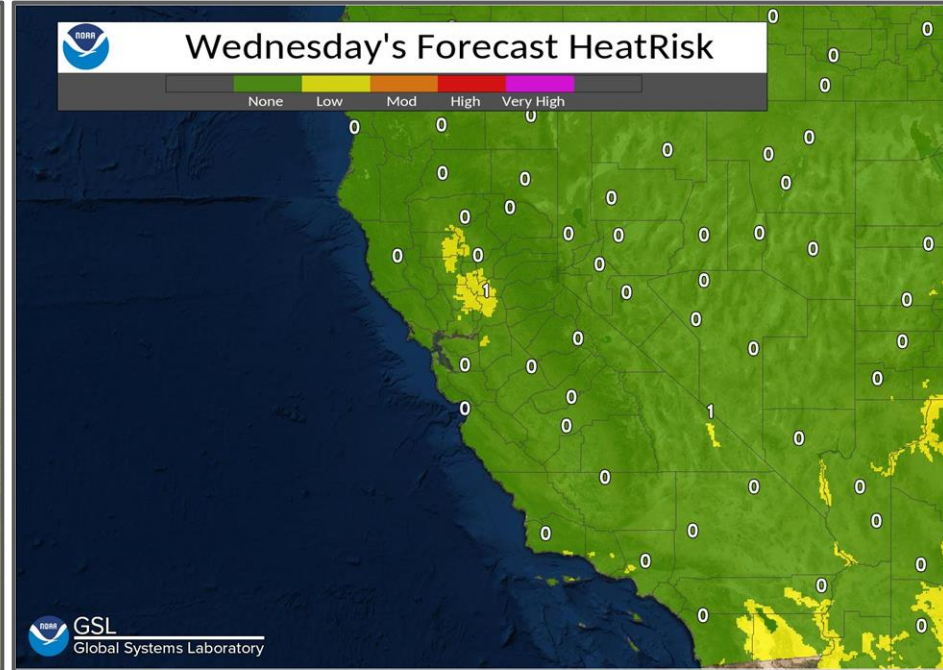

Tuesday's Forecast HeatRisk

None Low Mod High Very High

Wednesday's Forecast HeatRisk

None Low Mod High Very High

Green Level 0 No Elevated Risk

Yellow Level 1 Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration

Orange Level 2 Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Red Level 3 High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration

Magenta Level 4 Very High Risk for the entire population due to long duration heat, with little to no relief overnight

Weather Outlook (6-14 Days)

Regional Operations Center

Western Region

Tuesday, May 10

6-10 Day Outlook (May 15 - May 19)

Temperatures

- Above normal temperatures are favored for the majority of the state, with the exception of far northern California where near normal temperatures are favored

Precipitation

- Below normal precipitation is favored for much of central California, with near normal precipitation favored for both northern and southern California

8-14 Day Outlook (May 17 – May 23)

Temperatures

- Above normal temperatures are favored for most of the state, except for the far north where near normal temperatures are favored

Precipitation

- Below normal precipitation is favored for much of central and southern California, with near normal precipitation favored for northern parts of the state

WEATHER MAP

- Freeze Warning
- Frost Advisory
- Small Craft Advisory
- Wind Advisory
- Red Flag Warning
- Gale Warning

OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Enforcement Missions

- **2022-LAW-78275, 05/07/2022, 1815 hours:** IERCC advised of an InReach device activation plotting to the area of Hwy 1 in Monterey County. The device R/O reported a traffic collision with a severely injured person. Monterey County Sheriff was advised; emergency personnel responded to the scene, transporting one (1) party to the hospital. **Mission Closed.**
- **2022-LAW-78275, 05/09/2022, 2328 hours:** United States Coast Guard (USCG) District 11 advised of one of their patrol vessels spotted a maritime distress flare in the area of Bodega Dunes State Park. The patrol vessel checked the area. The crew observed a subject on the beach walking away from them as they approached. The crew was unable to make contact with the subject. LDO notified California State Parks NORCOM. A ranger was dispatched to the area to check for person(s) in need of assistance. **Update:** 05/10/2022, 0820 hours, NORCOM advised nothing located. **Mission Closed.**

Cal OES MISSION TASKINGS

Cal OES Missions

- **2021-TACCOM-061621 (OCFA Testing):** Sonim Kit HQ3 assigned to OCFA, to test Android phones with ATAK for fire season. ETA Return is 05/21/22. COMC monitoring. Contacted Assignee will advise on exact date of return for the resource.
